

Declaration concerning food contact - FDA

Product: ZEDEX-100K - Natural

We hereby declare that our semi-finished products, produced of the above-mentioned material, comply with the requirements of the FDA-regulation 21 CFR, Part 177, Section 1630 „Polyethylene phthalate polymers“.

The quality assurance system of the Plastmass Group TD, LLC is certified according to DIN EN ISO 9001: 2015 and serves as an important basis for the constant composition and quality of ZEDEX-100K.

It is the customer's responsibility to check the suitability of final plastic items made from or with our products for the intended use in the food industry. These include, for example:

- Check whether the physical properties of the plastic are suitable for the planned application.
- Check whether plastic parts manufactured by the customer meet the prescribed migration or extraction values.
- Testing for possible influence of the plastic on the composition and / or the organoleptic properties of food.

It is the responsibility of the recipients / users of our product to observe existing laws and regulations.

This declaration will be re-evaluated in the event of changes in guidelines and laws, raw materials, recipes, manufacturing processes or anything else. In the event of changes, new declarations will be published on our website; in this case, earlier declarations lose their validity.
